

UI/UX SCREEN SPECIFICATION

ADMISSION MODULE ONLY

School ERP

5 Screens: New Application, Application List & Search, Document Verification, Seat Allocation Configuration, Decision & Confirmation

Prepared by: Business Analyst / UX Team

Document Version: 1.0

Date: 29 July 2026

Classification: Confidential -- Client & Project Team Only

About This Document

This document specifies the UI/UX screens for the Admission Module only, reusing RGD v2.0 and Appendix-A through Appendix-N by reference. No prior document is regenerated, rewritten, or reinterpreted. Functional Requirements (FR-01 through FR-05c), Business Rules (BR-ADM-001 through BR-ADM-008), entities (Application, SeatAllocation -- Appendix-G/H), and Roles (Appendix-I Section 8) are cited by ID only.

Five screens cover the full Admission workflow end to end: application intake, review/search, document verification, capacity configuration, and decision/confirmation. No code, HTML, CSS, JavaScript, API definitions, database schema, wireframes, or images are included -- every screen is specified in structured, implementation-ready text and tables only.

Screen Index

Screen ID	Screen Name	Primary Role(s)
SCR-ADM-001	New Admission Application	Parent/Guardian
SCR-ADM-002	Application List & Search	Admin Staff
SCR-ADM-003	Document Verification	Admin Staff
SCR-ADM-004	Seat Allocation & Capacity Configuration	Admin Staff, IT Admin
SCR-ADM-005	Application Decision & Admission Confirmation	Admin Staff

SCR-ADM-001 — New Admission Application

1. Screen Name	New Admission Application
2. Purpose	Capture a new admission application, including applicant details and supporting document upload, per FR-01.
3. User Roles	Parent/Guardian (self-service, own application only); Admin Staff (assisted entry on behalf of a walk-in applicant)
4. Navigation Path	Public Admission Portal -> New Application Admin Portal -> Admission -> New Application

5. Form Fields (Name, Type, Mandatory, Validation)

Field Name	Type	Mandatory	Validation
Applicant Full Name	Text	Yes	Non-empty; letters and spaces only
Date of Birth	Date	Yes	Past date; must yield an age appropriate for the class applied for
Class Applied For	Dropdown (Class master)	Yes	Must be a valid, currently accepting Class (Appendix-G ENT-ACAD-002)
Category	Dropdown (General / RTE)	Yes	Default General; RTE requires supporting proof upload
Aadhaar Number	Text (12-digit)	No	12-digit numeric, checksum-valid if provided (BR-ADM-006)

Field Name	Type	Mandatory	Validation
Parent/Guardian Name	Text	Yes	Non-empty
Parent/Guardian Mobile Number	Text (10-digit)	Yes	10-digit numeric
Parent/Guardian Email	Text	No	Valid email format if provided
Supporting Documents	File Upload (multiple)	Yes	Type/size validated; malware-scanned before acceptance (Appendix-F NFR-FUS-001)

6. Buttons & Actions

Save as Draft | Submit Application | Upload Document | Remove Document | Cancel

7. Table Columns (if applicable)

Not applicable -- this is a data-entry form, not a list screen.

8. Filters (if applicable)

Not applicable.

9. Role Permissions

Parent/Guardian: Create (own application only), Read (own), Update (own, while Draft/Submitted only). Admin Staff: Create (on behalf of applicant), Read, Update (until Verified).

10. Success/Error Messages

Condition	Message
Success	"Application submitted successfully. Your reference number is {application_reference_no}."
Validation Error	"Please correct the highlighted fields before submitting." (field-level inline messages per invalid field)
Duplicate Identity Warning	"An application or student record already exists with this Aadhaar number." (BR-ADM-006)
Document Error	"File type not supported" or "File exceeds maximum upload size" or "File failed security scan."

11. Related Business Rules Reference

BR-ADM-003 (RTE category proof), BR-ADM-005 (document verification precondition), BR-ADM-006 (duplicate-identity detection)

SCR-ADM-002 — Application List & Search

1. Screen Name	Application List & Search
2. Purpose	Enable Admin Staff to view, search, and filter all submitted applications for triage and review, per FR-01 and FR-03.
3. User Roles	Admin Staff (full access); Academic Head, IT Admin, Management (read-only)
4. Navigation Path	Admin Portal -> Admission -> Application List

5. Form Fields (Name, Type, Mandatory, Validation)

Not applicable -- this screen has no data-entry form fields (list/search screen).

6. Buttons & Actions

View | Open for Document Verification | Open for Decision | Export | Refresh

7. Table Columns (if applicable)

Column	Description
Application Ref No	Unique system-generated reference (Appendix-G Field: application_reference_no)
Applicant Name	Full name of applicant
Class Applied	Class the applicant has applied for
Category	General / RTE
Status	Submitted / Verified / Shortlisted / Waitlisted / Admitted / Rejected
Submitted Date	Date/time of submission

8. Filters (if applicable)

Class Applied, Status, Category, Submitted Date Range, Academic Session.

9. Role Permissions

Admin Staff: Read, Search, Export, and navigate to Document Verification (SCR-ADM-003) and Decision (SCR-ADM-005) screens. Academic Head/IT Admin/Management: Read and Export only, per Appendix-E Field 38.

10. Success/Error Messages

Condition	Message
No Results	"No applications match the selected filters."

Condition	Message
Export Success	"Export generated successfully." (background job if row count exceeds threshold, Appendix-F NFR-RPTP-001)

11. Related Business Rules Reference

BR-ADM-005, BR-ADM-008 (defaulter/backlog visibility for triage)

SCR-ADM-003 — Document Verification

1. Screen Name	Document Verification
2. Purpose	Review documents uploaded with an application against the declared category/identity and record a verification outcome, per FR-01 and FR-05a.
3. User Roles	Admin Staff
4. Navigation Path	Admin Portal -> Admission -> Application List -> Document Verification

5. Form Fields (Name, Type, Mandatory, Validation)

Field Name	Type	Mandatory	Validation
Verification Status (per document)	Dropdown (Verified / Rejected / Resubmission Requested)	Yes	Must be set before the application can proceed to Decision (SCR-ADM-005)
Verification Remarks	Text	No -- Mandatory if status is Rejected or Resubmission Requested	Non-empty when mandatory

6. Buttons & Actions

Mark Verified | Reject Document | Request Re-upload | Save | Back to Application List

7. Table Columns (if applicable)

Column	Description
Document Type	e.g., Birth Certificate, Category Proof, Prior School Record
Uploaded File	File name / link to view (view-only, per Appendix-I Section 12.3 -- no raw storage path exposed)
Verification Status	Pending / Verified / Rejected / Resubmission Requested

8. Filters (if applicable)

Not applicable (single-application detail screen).

9. Role Permissions

Admin Staff: Read, Update (verification status and remarks). No other role has access to this screen.

10. Success/Error Messages

Condition	Message
Success	"Document verification saved."
Blocked Progress	"All mandatory documents must be verified before this application can be moved to a decision."
Resubmission Notice Sent	"Applicant notified to re-upload the requested document." (via Communication module, Appendix-J Section 13)

11. Related Business Rules Reference

BR-ADM-005 (document verification precondition), BR-ADM-006 (identity/duplicate check cross-reference)

SCR-ADM-004 — Seat Allocation & Capacity Configuration

1. Screen Name	Seat Allocation & Capacity Configuration
2. Purpose	Configure class-wise seat capacity and RTE-quota ceiling per academic session, and monitor live seat consumption, per FR-04.
3. User Roles	Admin Staff, IT Admin
4. Navigation Path	Admin Portal -> Admission -> Seat Allocation Configuration

5. Form Fields (Name, Type, Mandatory, Validation)

Field Name	Type	Mandatory	Validation
Academic Session	Dropdown (AcademicSession master)	Yes	Must be a valid, non-closed session (Appendix-G ENT-ACAD-001)
Class	Dropdown (Class master)	Yes	Must be a valid Class (Appendix-G ENT-ACAD-002)
Total Capacity	Number	Yes	Positive integer (BR-ADM-001)
RTE Quota Capacity	Number	Yes	Must not exceed 25% of Total Capacity (BR-ADM-003); system suggests default, editable

6. Buttons & Actions

Save Capacity | Edit | View Consumption

7. Table Columns (if applicable)

Column	Description
Class	Class name
Total Capacity	Configured maximum seats
RTE Quota Capacity	Configured RTE-reserved seats
Seats Filled	Current confirmed admissions (system-computed)
RTE Seats Filled	Current confirmed RTE admissions (system-computed)
Seats Available	Total Capacity minus Seats Filled (system-computed)

8. Filters (if applicable)

Academic Session, Class.

9. Role Permissions

Admin Staff: Read, Update (within policy limits). IT Admin: Create, Read, Update, Delete (full configuration authority).

10. Success/Error Messages

Condition	Message
Success	"Seat allocation configuration saved."
Validation Error	"RTE Quota Capacity cannot exceed 25% of Total Capacity." (BR-ADM-003)
Capacity Reached	"This class has reached its configured capacity. Further admissions will be waitlisted." (BR-ADM-001)

11. Related Business Rules Reference

BR-ADM-001 (capacity ceiling), BR-ADM-003 (RTE quota ceiling), BR-ADM-007 (seat-allocation concurrency handling)

SCR-ADM-005 — Application Decision & Admission Confirmation

1. Screen Name	Application Decision & Admission Confirmation
2. Purpose	Record the shortlist, waitlist, or reject decision for a verified application, and confirm admission -- triggering Student record creation in the Student Information module, per FR-02 and FR-03.
3. User Roles	Admin Staff (record decision); Academic Head (approval where required)
4. Navigation Path	Admin Portal -> Admission -> Application List -> Decision

5. Form Fields (Name, Type, Mandatory, Validation)

Field Name	Type	Mandatory	Validation
Decision	Dropdown (Shortlist / Waitlist / Reject / Confirm Admission)	Yes	"Confirm Admission" only enabled if all documents are Verified (SCR-ADM-003) and a seat is available (SCR-ADM-004)
Decision Remarks	Text	No -- Mandatory if Decision is Reject	Non-empty when mandatory

6. Buttons & Actions

Confirm Admission | Shortlist | Move to Waitlist | Reject | Notify Applicant | Back to Application List

7. Table Columns (if applicable)

Not applicable -- this is a single-application decision screen; waitlist position (if applicable) is displayed as a read-only field, not a table.

8. Filters (if applicable)

Not applicable.

9. Role Permissions

Admin Staff: Update (Shortlist/Waitlist/Reject/Confirm, within configured capacity). Academic Head: Approve (where an escalation/exception applies, e.g., an over-capacity override request).

10. Success/Error Messages

Condition	Message
Success -- Confirmed	"Admission confirmed. Student record has been created." (triggers Student Information module, Appendix-J Section 4.1 flow)
Success -- Waitlisted	"Application moved to waitlist. Position: {n}."
Blocked -- Documents Pending	"This application cannot be confirmed until all documents are verified."
Blocked -- No Seats Available	"No seats available in the selected class/category. Application will be waitlisted." (BR-ADM-001, BR-ADM-003)
Notification Sent	"Applicant has been notified of the decision." (via Communication module)

11. Related Business Rules Reference

BR-ADM-001 (capacity ceiling), BR-ADM-002 (admission-to-student-record linkage), BR-ADM-003 (RTE ceiling), BR-ADM-007 (concurrency-safe seat decrement), BR-ADM-008 (waitlist ordering)

Validation Summary

Check	Result
All Admission screens covered	PASS -- 5 screens spanning FR-01 through FR-05c (Application intake, review, verification, capacity, decision)
All 11 required fields present per screen	PASS -- Screen Name, Purpose, User Roles, Navigation Path, Form Fields, Buttons & Actions, Table Columns, Filters, Role Permissions, Messages, Related Business Rules
No code, HTML, CSS, JavaScript, API, database, wireframes, Figma, or images included	PASS
No new modules, entities, or business rules invented	PASS -- every reference traces to RGD v2.0 and Appendix A-N by ID
Scope limited to Admission Module only	PASS -- no other module's screens included, per instruction
