

UI/UX Screen Specification — Library Management Module

Reuses RGD v2.0, Appendix A-N, and the approved Admission, SIS, Attendance, Examination, and Fee UI/UX Screen Specifications by reference only; none regenerated. FR-27 to FR-29, BR-LIB-001 to BR-LIB-006, and the Book/BookIssue entities (Appendix-G/H) are cited by ID. Student, Staff (Employee), and AcademicSession entities are reused unchanged. Three screens (Book Category Master, Author Master, Publisher Master) reference data not modeled as separate entities in Appendix-G/H — flagged inline (*) rather than invented as new master tables.
